Epilepsy Warning

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

Owners of Projection Televisions

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection TVs.

About Audio Connectors

If the Audio connection is made to your television from the Sega CD, the Mixing Cable must be used to connect the headphone output jack on the front of the Genesis to the MIXING input jack on the rear of the Sega CD. DATELINE --1998

In the post gulf war era, there's no safe harbor. Battles are no longer contained. There are no front lines. Enemy soldiers are trained terrorists who are securely settled in the middle of civilian populations. They are ready to strike at any instant.

To penetrate this inner sanctum of evil, the UI created an elite team of special forces known as SURGICAL STRIKE. With the effectiveness of a mechanized marine battalion, each unit can boast 4 highly trained specialists (including the Player) with advanced recon, weapons and vehicles (attack hovercraft) specifically designed for stealth, speed and firepower in any arena.

As a member of the surgical strike team, you have to be ready to ferret out this human waste and dispose of it appropriately.

THE TEAM

BRANSON

Before you face Kabul, Commander Branson will brief you on your mission. If you don't succeed, he'll court-marshal you --with pleasure.

BULLDOG

A slab of muscle and jawbone -- which he never keeps shut. For him, war is family. It's all he knows. He doesn't like peace. He doesn't like quiet. And he doesn't like Players that have no respect.

REED

A hard core special forces member STRIKE TEAM. Reed has seen more combat than most 65 year old generals. Off the battlefield, he appears quiet almost bored, but in the heat of battle he's fast and lethal. REED has no patience for Player's that can't keep up with the team.

ALI

Intelligent, independent, and adventurous as in "Alley Cat". She didn't join special forces to prove her "manhood" or for some high concept to fight the evil forces of mankind. She just wanted to have fun. And that was never a problem for her. ALI is not pretty -- she's striking. Her slender frame betrays a strong body, and her mind is totally unpredictable.

JJ

The Strike Commander, "JJ", is smart, beautiful, and caring. She is the eyes and ears of the STRIKE team operating from an AWACS C-130 overhead. Looks more like an aerobics instructor than a recon specialist. Takes a personal interest in saving the lives of the team, especially new recruits like the Player.

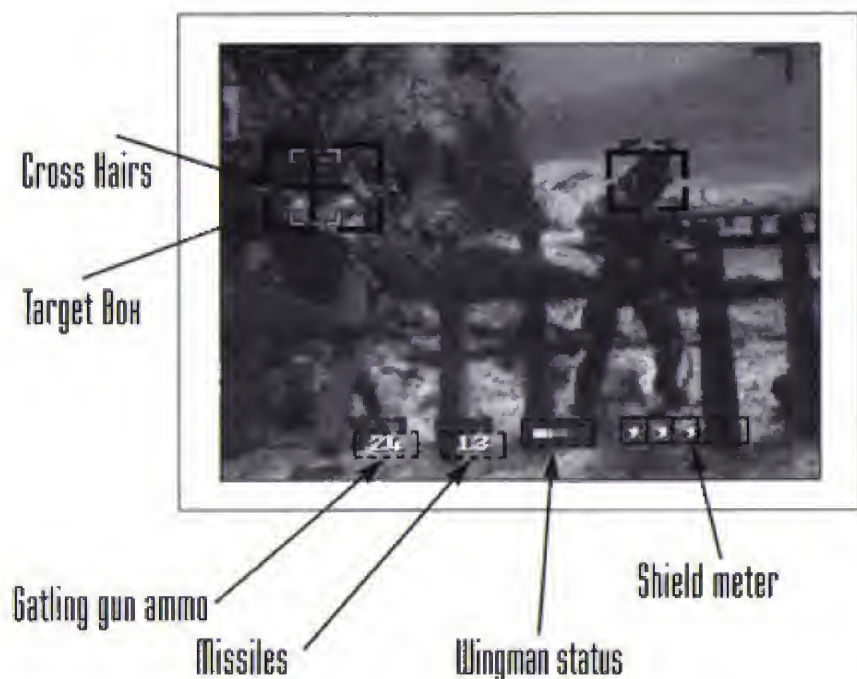

KABUL

One of the most treacherous high-tech terrorists that the world has ever known. Kabul has no conscience and no concern for human life. His formula for success is "world destruction equals personal gain." He is clever, well fortified, and difficult to capture.

HEADS UP DISPLAYS

- Wingman Status: Shows remaining team members.
- Shield Meter: Shows shield status of current wingman.
- Cross Hairs: Use D-Pad to target enemy positions.
- Target Boxes: Are used to indicate enemy targets.

Red boxes indicate mission objectives. Yellow boxes indicate enemy targets.

Directionals - Icons will appear at the top of the screen indicating when alternate routes are available.

If no direction is selected, straight ahead is the default

WEAPONS

GATLING GUNS-- (BUTTON A) A single 30mm gatling canon capable of 6000 rounds of high velocity armor piercing bullets per minute. Effective against soft targets like Habul's rebels and sniper emplacements.

MISSILES-- (BUTTON B) Laser guided rockets capable of penetrating up to 5 inches of steel plated armor. Effective against all targets, but you have a limited supply; save them for tanks, helicopters, underground missile silos and bunker entrances.

HINT--Do not shoot missiles when indoors!

DEFENSE SYSTEMS

Shields--Each one of your wingman has a shield protecting their craft. If you fail to protect your team, your wingman's shield will sustain damage. When the shield drops to zero you will lose the wingman. Losing all your wingmen will abort the mission.

HINT: Shields of remaining wingmen regenerate slowly with time

RECON SYSTEMS

SATELLITE ELECTRONIC MAPPING-- top down view. Marks all mission targets. Shows you where you are in the battlefield.

RWACS-C-130--At key intervals during the game, "JJ" the strike controller will give you up to the minute intelligence reports regarding Habul's whereabouts.

MISSION 1

MISSION 1 MAP

THE DESERT TOWN

Kabul has taken over the town hall and is threatening to launch missiles against innocent civilian targets. Your mission : to find and destroy these missiles -- but watch out, Kabul is one step ahead of you! Make the right choice and you've destroyed the evil that has held the world captive to the whims of a crazed terrorist, make the wrong decision and you're history.

HINT: Check the map to see where Kabul's missiles are. You can only successfully attack the missile silos from one direction.

MISSION 2

MISSION 2 MAP

THE MOUNTAIN FORTRESS

Congratulations--your last mission was successful but Habul has slipped away into a secluded mountain hideout.

But this time, the stakes are a lot higher. He has kidnapped the UN Secretary's daughter!

To get into his bunker you've got to defeat a ring of armored tanks and helicopters.

MISSION 3

ISLAND PARADISE

Rhhhh just what you needed a little R&R--just you, a tropical island and nothing but... what's this? Are you dreaming?

This is not just fun and frolicking in the sand. This time, Habul has Ali!

Unless you defeat Habul, he'll launch his full compliment of missiles against innocent civilian targets.
